Lab 6. Document Updating and Deletion Methods

1. Update an id=1, firstName field in a single document in employees collection to "Nariman" and add the location field as "Aktau".

2. Increase the value of the salary field for firstName: "Elaman" by 500.

3.Updates email and lastName fields for id=2 as lastName = Turganbay, email=elaman.turganbay@abc.com

4. Overwrite array elements for skills of id=5 as "Sales Tax".

5. Add department with name= 'Finance', location= 'Astana' information to id=5 and update document.

6. Update "Marketing" to "Public Speaking" in the skills array field to all the documents.

7. Add "Sports" element to skills array where id=3.

8. Add "Sports" and "Acting" to all skills arrays.

9. Add "GST" to all skills arrays if not exist.

10. Remove the first element of all skills arrays.

11. Delete all documents from the employee's collection where salary=7000.

12. Delete all documents where salary is less than 7000.
